NPIC/TSG/RED/SDB-057-70

1 December 1970

MEMORANDUM FOR THE RECORD

25X1 SUBJECT : Disposition of [] Experimental Dry Photographic 10-inch Film Processor

REFERENCE: NPIC/TSG/RED-267-70, TSG/ESD-039-70

1. The 10-inch Dry Silver Sheet Film Processor and the 40-inch Enlarging Paper Processor recently delivered to NPIC are both undergoing a thorough technical T&E by ESD personnel. IAS has requested the use of both the 10-inch processor and the 40-inch processor as soon as ESD has completed its basic tests. The photo lab will probably want to perform an evaluation of the 40-inch Enlarging Paper Processor. After the operational evaluation, it is planned that these equipments be returned to ESD in order to compare and evaluate newer and improved Dry Silver materials.

2. The "Sensitometric Sheet Film Processor" subjected in memo NPIC/TSG/RED-267-70 is the 10-inch Sheet Film Processor described above.

3. It is recommended that the planned program outlined in paragraph 1 be followed and that other special uses of these equipments await their return to ESD and be coordinated at that time.
